[Personal website](#)

Passionate and innovative engineering student who possesses a strong fascination in the field of Computer Science with a desire to constantly develop new skills

## Technical Skills

---

**Web development:** JS, HTML, CSS, Typescript, Node.js, React, Next.js, Express, TailwindCSS, Python (Django & Flask), Ruby on Rails, Sanity.io

**Mobile development:** React Native, Expo, Capacitor.js

**Data Science:** Python Pandas, Jupyter Notebook

**Database:** MySQL, PostgreSQL, MongoDB

**Software & Others:** GIT, Docker, AWS, Heroku

## Professional Work Experience

---

**Software Development Assistant Manager** - Turgut Aydın Holding, Istanbul, Turkiye 10/2023-Present

→ Technologies: C#, JavaScript, SQL, HTML, CSS

- Utilized JavaScript, SQL, C#, HTML, and CSS to build internal software tailored for companies within the corporate holding, focusing on efficiency and functionality.

**Software Engineer, Twise.ai** - Barcelona, Spain 03/2023-10/2023

→ Technologies: JS (React, Next.js), React Native, TailwindCSS, HTML, CSS

- Developed and integrated frontend features to enhance data consistency and optimize userflow through both internal and external APIs.
- Contributed to frontend development using Next.js, TypeScript, React, and Tailwind CSS.
- Independently engineered the majority of a mobile application. This process played a crucial role in updating the AI twin's information, thereby enhancing overall user interaction and system functionality.

**Software Engineer Intern** - PusulaBT, Istanbul Teknopark 01/2022-06/2022

→ Technologies: Python, Django, JS, SQL

- Worked with design teams and Senior Software Engineers to build customized software products for consumers.

## Education

---

**BSc, Business Administration** 2023 - 2027 Istanbul University, Turkiye

**BSc, Computer Engineering** 2022 - 2023 Universidad de Castilla-La Mancha, Spain

**BSc, Computer Engineering** 2019 - 2024 Bilecik University, Turkiye

## Languages

---

English: Advanced(C1)

Spanish: Beginner(A2)

Turkish: Native

## Taken Courses

---

- Machine Learning Techniques - University of Castilla-La Mancha
- Web Systems Development - University of Castilla-La Mancha
- Software Engineering II - University of Castilla-La Mancha
- Introduction To Computer Science And Programming In Python - MIT (Online)
- Technology-Enabled Blitzscaling - Stanford University (Online)
- How to Start a Startup - Stanford & YCombinator (Online)
- Human Behavioral Biology - Stanford & YCombinator (Online)
- Justice - Harvard University (Online)
